

CramFLASH Study Flashcards for AWS SysOps Admin Associate Exam: 50 flashcards included

Study flashcards are one of the most effective fasted paced learning tools you can use. Our study flashcards are designed to help you memorize as many key facts and details as possible. They work just like the real world flashcards where one side provides the prompt while the other side provides the correct answer. Each card uses large and bold writing to write key words and short statements, making it very easy to read at a glance. To ensure ease-of-use, there is no complicated or fancy control functions added to the products. To read the contents, you simply need to use your ebook reader device to purchase and open the product files. Since they are NOT apps, separate installation process is not necessary. 50 flashcards included covering the AWS SysOps exam.
