

Have I been ABDUCTED? True Life Alien & UFO Dream Experiences

This is a collection of the true life Alien and UFO dream experiences of S.G. Kitzmann, a military Veteran. All of her dreams have been recorded since 1995. These are not vague memories of dreams, but rather extraordinarily detailed accounts with dates. Shortly after receiving numerous mandatory shots in 1990 during Desert Storm (the first Gulf War), she began experiencing what she considers to be vivid dreams of encounters with aliens. Others who have read her dreams and have spoken with her believe that she has been abducted by, or in telepathic contact with, aliens. Unknown to her at outset of the alien dreams, the inoculations forced upon Service members by the government were experimental and lead to the mysterious illness Gulf War Syndrome. Is it a coincidence that life-like dreams with aliens began directly after the government conducted medical experiments on the troops? Has any other Veteran had this same experience? After much discussion and debate, she has made the decision to make her dreams public for further input. Whether you believe in UFOs and aliens or not, you will find these dreams fascinating. While some of these dreams are clearly dreams, others might make the hair on the back of your neck stand on end.

The shared/mutual dream she and her boyfriend both experienced of being abducted by aliens in 2000 is particularly interesting. It makes one pause for thought.
