

## Alien Isabella: Illustrated Metaphysical Science Fiction and Fantasy Stories (Alien Characters) (Volume 17)

Alien Isabella is in love with an alien from another race. That isn't a problem, though. The problem is that she is a Kooth, which means no one can remember her. Including her boyfriend! What can she do? How can she get him to remember her? And what offer does Alien Doctor Frank have for her and her boyfriend? Find out more in Alien Isabella. Book #17 in the Alien Characters series, featuring 17 beautiful illustrations by Genelyn Javier. Each book contains an encapsulated story within the Alien Characters universe and each story features a new character. They can be read as stand-alone titles or in groups of series. If you're looking for something new for your child, or a birthday or Christmas present, or something to take along to a child's party as a present, an Alien Characters book would make an interesting gift. The style of writing is for a similar age group to the Mr Men, Thomas the Tank Engine and Doctor Who children's books, and makes great bedtime reading. The Alien Characters series is currently approaching 70 titles, and has a spin off series for young adults entitled Galactic Mission Series. Collect them all!
