

Financial Accounting: A Focus on Decision Making

This highly-readable text provides balanced (procedural and user) coverage, focusing on how accounting information can and should be integrated into the decision-making processes of investors, creditors, and other financial decision-makers. Real-world examples, ethics, decision-making, internal controls and international issues are emphasized throughout. Highly praised by reviewers for informal and appealing writing style. Incorporates AECC coverage of communication, team projects, ethics, and critical thinking throughout the problem material. The looseleaf edition is automatically packaged with the student notetaking guide at no extra charge.
