The number of articles, blogs, books, tips, tools and techniques will send your brain into a dizzy spell that could last for weeks! Who needs this book? ANYONE who... Has starting trouble every time they begin a new project Finds it hard to get things done on time Feels that simple tasks sometimes get complicated Has trouble getting organized Finds it difficult to prioritize tasks Hasn't found their answer to productivity yet! So what makes this book different from the billions of words printed and published on the subject? This book does not tell you about systems, techniques and methods. It tells you stories so you can relate those principles to your own life. That's the KEY difference. Speaking of KEY, the author of this book - Mr. KEY (Karnika E. Yashwant) - is a lesson in productivity by himself. Now in his 20s, he started his first company at the age of 14, becoming India's Youngest CEO. If anyone knows productivity, Mr. KEY does. Mr. KEY and his advice CAN MAKE A DIFFERENCE to your life. He does not talk about ways to be more productive; rather, he tells you how to put yourself in a frame of mind where productive thoughts automatically dominate your mind. That is THE REAL SECRET TO PRODUCTIVITY. This book is different. It is NOT One of the millions of pieces of printed material that tells you how to manage your time so you can get more done in a shorter period. A book that will lay out a blue-print for your success because that would never work for you. This book IS: A beacon of light that shows you what to do so that productivity and happiness can ultimately be yours. A reference manual to see if you're moving in the right direction A support system to eliminate unproductive habits Why do you

need this book? Well, the truth is -you dont. You can go on being the beautiful person you are. There's nothing wrong with you because you were created by a Perfect Being - and nothing that comes from perfection can be imperfect. But the fact that you've come so far down this little bit of writing means that you're a seeker. And seekers are usually after knowledge that enriches them. Perfect as we all are - and this may seem presumptuous to some - we still desire change for the better. Don't be confused by this concept of perfection. We all have our flaws and personal typos in our genetic code. But the seeking of perfection is what makes us perfect beings. And in that quest for perfection, this book may be the lubricant that helps you slide through at a much faster rate than you're going at now. That's all. So what are you waiting for? You've come this far in your journey - why not go that extra mile to see what this book can offer you? After all, it's been written by a life coach who has helped thousands of youngsters see the light in their own lives. You could be the next.
