

The Treasury of Judaism: A New Collection and Translation of Essential Texts (Studies in Judaism)

This is the third volume of a set of anthologies that sets forth the statements of the formative canon of influential Rabbinic Judaism on three large topics: the calendar, the life cycle, and theology. Focusing on the seminal period of normative Judaism, the editor Jacob Neusner presents in three parts the teachings of Rabbinic Judaism in late antiquity, the first six centuries of the Common Era.
