

How Temple Grandin Saved Autism for Our Family

Having children with autism can be overwhelming for parents. Thankfully Temple Grandin shares about her life with autism to help parents like Stephanie learn how to take care of their children and prepare them for the future. Stephanie shares how she learned to care for her kids and help them learn social skills, mannerisms, and appropriate social behaviors through reading Temple Grandin's books. Temple's mother was told to put her into an institution which would have been letting autism defeat Temple and her family. Temple's mother took offense to the doctors' recommendation and began to take Temple's life into her own hands. Temple's mother did not allow Temple to get away with bad behavior because she was autistic. Temple knows that autism is not an excuse for bad behavior but instead a reason as to why the bad behavior may be occurring. Stephanie shares how Temple Grandin helped her increase the functioning level of her twins so that they are better prepared to succeed in this world in the future. Now Stephanie shares some of what she has learned from Temple Grandin with you the reader in this great book. Here is an excerpt from *How Temple Grandin Saved Autism for Our Family*. Temple helped me understand how to help my twins find something that they are really interested in and help them develop a talent in that field so that they will be able to be more successful in life. Having a career in what is called their special interest area will help ensure that people with autism can succeed. Having a career in a special interest field allows them to take their mind off of the social things that are going on in their life and it allows them to focus on their job or career.
