

## Company Accounting

This fully updated new edition of Company Accounting: Prepare Financial Reports for a Reporting Entity uses the clear, concise writing style and logical structure of the previous edition to help students master the rigours of this often complex subject. This text provides a complete overview of the key principles for recording and reporting the financial activities of companies in accordance with current legislation and accounting standards. The text's self-paced approach makes it ideal for both classroom delivery and student self-study.
