

CONNECTIONS: A Guide to Types and Symbols in the Bible

Many Christian books and teachers are now discussing types and shadows or prophetic symbolism or codes - but leave little explanation or proof that what they are saying is even biblically based! Some of what is being taught today is not really Christian, but actually a rehashing of occult themes. It is filled with insights from Hebrew and Greek words, verse cross-references, and ancient Jewish and Middle-Eastern culture and customs. This is an extensive work; nearly 200,000 words, with 23 chapters, packed with valuable information for teaching, preaching, or personal research. This will expand the reader's understanding of the God's amazing orchestration hidden in the Bible, as it reveals the deep truths hidden in the events, names, places, numbers, parables, and even the languages the Bible was written in.
