

Hunger & Thirst - This Present Vow

Typology is a subject that requires one to search the Scriptures, for its very nature compels one to dig deeply into the Word of God. By diligently seeking out the passages, remarkable discoveries of substance and significance will become conscious to the explorer. Dynamic truths are waiting to be tapped and made available to the truth seeker; resources of power to combat the enemy will be unlocked and deployed. They that hunger after righteousness will receive revelation to the many principles God has intended to share with those who sincerely seek for Godliness. Through searching the Scriptures great strength will come by applying God-given truths in ones personal life. By mining these golden nuggets, advantage will come to the Church and decisive power over the enemy will be obtained. According to author and writer Wayne Jackson, One of the most fascinating areas of Bible study is that of typologythe study of Scripture types. Typology is inspirational God-motivated principles that bring practical application to ones personal life, society and or the Church. Bible typology has purpose for contemporary life. It will communicate profound spiritual truths to all that take time to study Gods Word.
