

Taste of College

This book is a collection of writing assignments that was mandatory for a variety of courses taken in college. Writing is an overtime investment of developing just the right techniques to express your own thoughts and feelings. Taste of College is for those who want to attend school, but their way of thinking is keeping them from experiencing something wonderful. Napoleon Hill states it well, Do not wait: the time will never be just right. Start where you stand, and work whatever tools you may have at your command and better tools will be found as you go along.
